Date of Samples Taken: _____

Waste From	Paper	Aluminum Cans	Glass	Plastic	Other	Other
Kitchen						
Deliveries						
Bedroom						
Other:						
Total Weight (lbs) or volume						

Waste Audit Analysis Day 3

Date of Samples Taken: _____

Waste From	Paper	Aluminum Cans	Glass	Plastic	Other	Other
Kitchen						
Deliveries						
Bedroom						
Other:						
Total Weight (lbs) or volume						

Post-Audit Questions

To complete at the end of your waste analysis--either after Day 3, or on the last day of your data collection.

- 1) List all of the items you found. Rank in order of highest number found. Note whether the item found can be recycled, reused, or composted.

- 2) How much of the weight, or volume, comes from packaging materials? What are some reasons for the packaging? Can you think of some alternatives to buying products with non-recyclable packaging?

- 3) What can you do to personally reduce the amount of waste in your home?

- 4) What can you do to teach others in your home about where to put these items or cut down on their own waste?
